LUCERNE FACILITIES

Beachcomber Resort (707)274-6639

Clear Lake is the largest natural lake completely in California. It has a surface area of 44,000 acres and 110 miles of shoreline. The lake is quite shallow, around 50 feet at its deepest point, but is generally its lowest in late summer. Some of the shallow areas are marked by bays.

Clear Lake is the top bass lake in California and among the best in the U.S. Local merchants sponsor many major bass tournaments throughout the year. In fact, Clear Lake is a very popular spot in the professional bass fishing circuit. The lake record for largemouth is over 17 pounds, but 10 lb bass are common, as are 20 lb catfish and 5 lb crappie. Crap shootouts are also popular events.

Spring and early summer produce the best fishing, and April is the busiest month. Early autumn is also good. Bass are usually found in about 10 feet of water in spring and summer. Artificial baits near structures such as boat houses, docks, and piers usually produce positive results.

The warm water makes other water activities such as sailing, swimming, skiing, and parasailing very popular. Facilities are also plentiful for camping, hiking, golf, and mountain biking. There are several public beaches, parks, and launch ramps around the lake.
