CATARACT/ MANSFIELD

Indiana

Topographic Map for Fishing, Boating, and Recreation

OUR PROMISE TO YOU

This map is now published by Kingfisher Maps, Inc. We are currently in the process of updating and improving the overall quality of this map. Some changes are already incorporated, such as the use of the new waterproof, tearproof material it is printed on. More improvements are being incorporated with each printing. We promise you superior quality, prompt and friendly service, and lasting value. You may direct your ideas, suggestions, or comments by calling 803 882-5840. Thank you!

QUICK, DELICIOUS PAN-FRIED FISH

2 T. cooking oil
2 T. butter or margarine
Heat in skillet just until bubbly.

½ c. self-rising white corn meal
1 t. salt
¼ t. pepper
Mix above three ingredients in paper or plastic bag.
Add catfish fillets (or bream, crappie, perch, or bass at a time) in bag and shake carefully to coat. Brown fillets in skillet until golden brown, turning once. Cook about 2 minutes per side (two to three minutes each side). Don't overcook!

Optional Lemon-Butter Sauce
1 T. butter or margarine
Juice of 1 lemon
Sprinkle of salt
Dash of pepper
Combine all ingredients and pour over hot fish. Serve immediately.

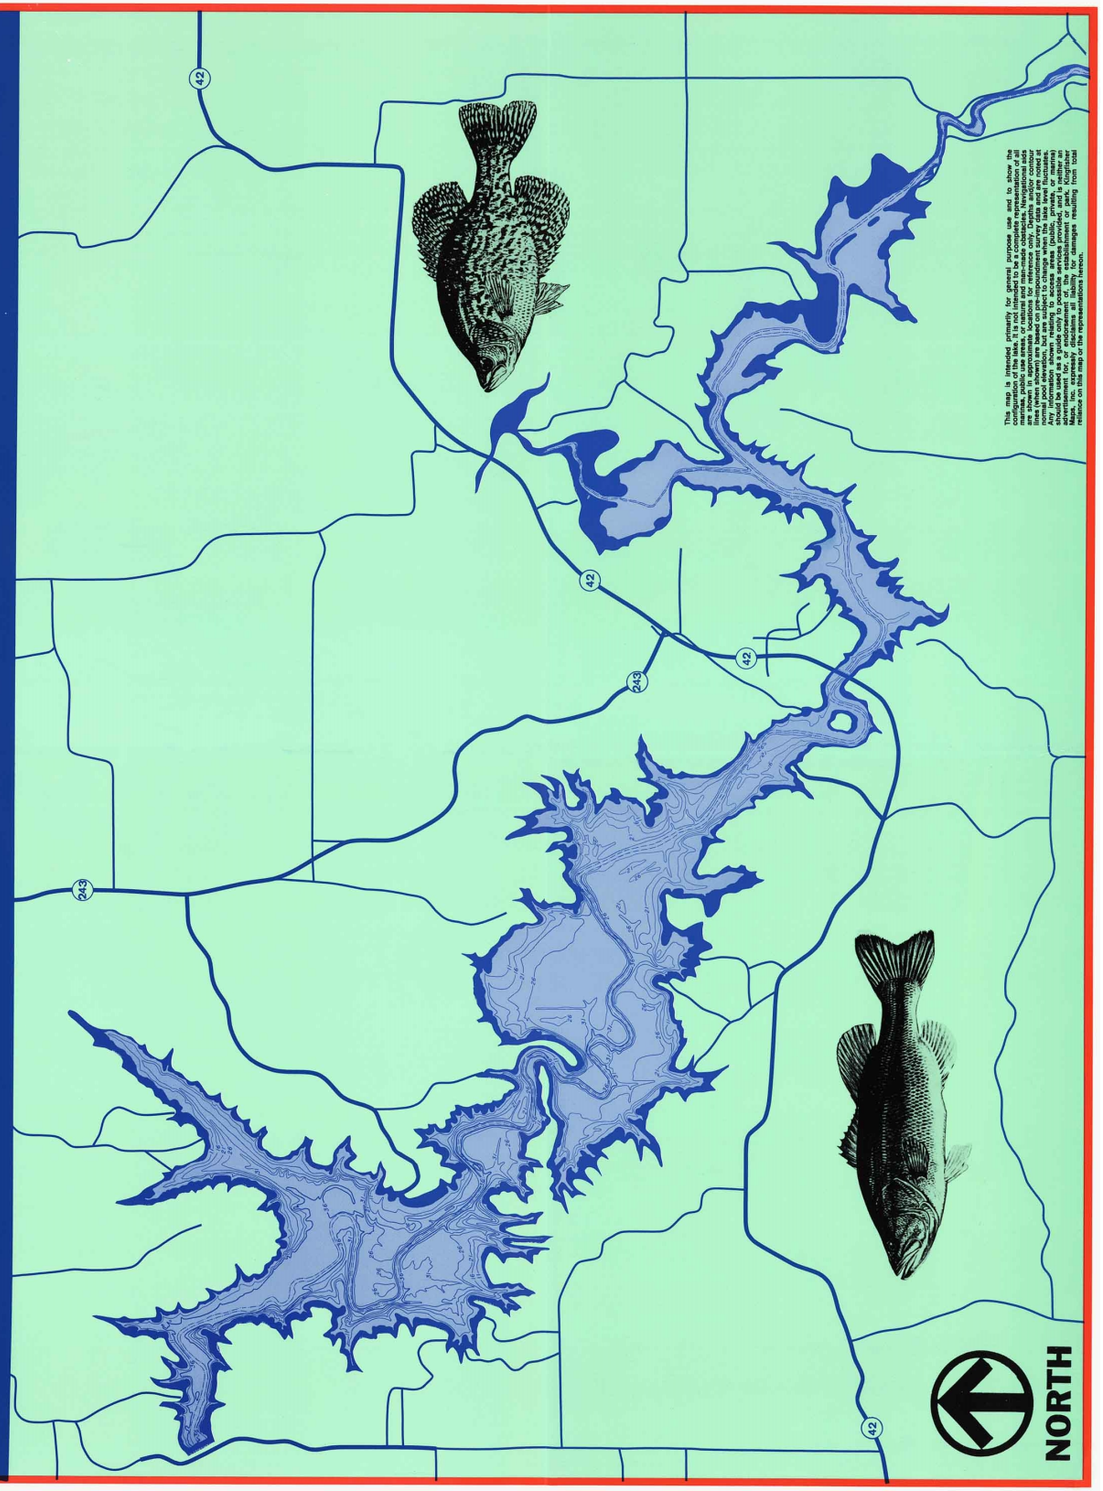
LAKE BOTTOM LEGEND

Interpretation of a lake bottom from a contour map is based on the spread of the contour interval lines. The closer together these lines are, the faster the slope. At the extremes, lines directly on top of each other indicate a straight drop or bluff, while the absence of lines, (or lines that are widely spread) indicate a relatively flat area. The contour intervals may vary from 2.5 feet to as much as 80 feet depending on the prevailing geographical conditions and the practicality of interpretation. The contour lines may be marked as the number of feet above sea-level, or as the actual depths when the lake is at maximum power pool. When actual depth designations are used, the true depth must be adjusted by the current variation of the lake level from the maximum power pool elevation.



NORTH

The map is intended, primarily for general purpose use and to show the configuration of the lake, permanent features, and the location of boat launching ramps, marinas, public use areas, or natural and man-made obstacles. Navigational aids are shown where available, but should not be relied upon for safe navigation. Water limits (when shown) are based on pre-impoundment survey data and are noted at selected points for general information purposes only and should not be relied upon. Any information shown, relating to access areas (public, private, or marinas) services, or facilities, is subject to change without notice and does not imply endorsement, warrant, or endorsement of the establishment or party. Kingfisher Maps, Inc. assumes no responsibility for any damages resulting from total reliance on this map or the representations hereon.
