CAUTION
CHANGES IN BUOYAGE

Mariners are advised that numerous aids to navigation are being changed in accordance to maritime standards of the Inter-national Association of Maritime Authorities Maritime Buoy- & Light System, Region B. Significant changes are: black port hand buoy to green; black and white vertically aligned buoy to red and white vertically aligned buoy; black and white vertically aligned buoy to red and white vertically aligned buoy; black and white vertically aligned buoy to red and white vertically aligned buoy. Changes to aids to navigation are being made by the Hydrographic Agency Hydrographic Topographic, Coast Weekly Notice to Mariners and the U.S. Coast Guard Local Notice to Mariners.

RADAR REFLECTORS

Radar reflectors have been placed on many floating aids to navigation, individual radar reflector identification on these aids has been omitted from this chart.

This nautical chart has been designed to promote safe navigation. The National Ocean Service encourages users to submit comments and suggestions to the National Ocean Service, Director, Charting and Geospatial Services (NCG22), National Oceanic and Atmospheric Administration, 1215 Jefferson Davis Highway, Alexandria, Virginia 22304.

SCALE 1:19,200

The chart shows the coastline of West Palm Beach, Florida, with Lake Worth to the east. Key features include the Gulf Coast, Lake Worth, and various navigational aids such as buoys and lights. The chart is titled 'WEST PALM BEACH' and includes a scale of 1:19,200. The chart is published by the National Ocean Service, Hydrographic Office, and is part of the Nautical Chart of the United States.
