LAKE BOTTOM LEGEND

Interpretation of a lake bottom from a contour map is based on the spread of the contour interval lines. The closer together these lines are the faster the slope. At the extremes, lines directly on top of each other indicate a straight drop or bluff, while the absence of lines, (or lines that are widely spread) indicate a relatively flat area. The contour intervals may vary from 25 feet to as much as 80 feet depending on the prevailing geographical conditions and the practicality of interpretation. The contour lines may be marked as the number of feet above sea level or as the actual depths when the lake is at maximum power pool. When actual depth designations are used, the true depth must be adjusted by the current variation of the lake level from the maximum power pool elevation.

EASY BAKED FISH FILLETS

Heat oven to 350°. Sprinkle both sides of fillet with salt and pepper, then set aside until later.

$\frac{1}{4}$ C. Melted butter, margarine, or oil
1 T. Lemon juice
1 T. Mixed onion
Combine the above three ingredients. Dip each fillet into the mixture and place on baking dish. Drizzle remaining butter mixture over fillets.
Bake 25 to 30 minutes, or until fish flakes easily with a fork. Do not overcook. Sprinkle fillets lightly with paprika, then serve with tartar sauce, lemon, or hot sauce. A nice hot sauce can be made by combining chili sauce, a small drop of Tabasco, and lemon juice, and then heating the mixture. Enjoy!

NORTH

This map is intended primarily for general purpose use and to show the configuration of the lake. It is not intended to be a complete representation of all marinas, public use areas, or natural and man-made obstacles. Navigational aids are shown in approximate locations for reference only. Depths and/or contour lines (when shown) are based on pre-impoundment survey data and are noted as normal pool elevation, but are subject to change when the lake level fluctuates.
