Fishing, boating, swimming, and hunting opportunities await those who travel to Paintsville Lake, located four miles west of Paintsville, Kentucky. The lake carves its way through the steep hills and narrow gorges of Johnson and Morgan Counties, covering 1,139 acres. Normal full pond elevation is 710 feet above sea level.
Fingerling bass are stocked in the lake, as well as walleye, redbreast sunfish, and channel catfish. The tail water is stocked with trout. There is no size limit on boats or motors on Paintsville Lake.
Because there are no beaches or lifeguards at the project, swimming is permitted only at the swimmer's own risk. Swimming is prohibited within 100 feet of the dam's intake structure and around boat launching ramps.
