Water Safety ~ TVA encourages the public to practice water safety procedures. Significant water-use hazards exist above and below TVA dams where waters often rush over spillways and through sluice gates, lock culverts, and turbines. Many of these operations are automatic and occur without warning. Boaters should obey all loading signs posted in these areas and wear Coast Guard approved life preservers at all times.

Sailboaters ~ Sailboaters are especially cautioned to avoid approaching within 15 feet below powerlines to prevent injury or property damage that can result from contact or electrical arcing. Information on specific crossings can be obtained by calling (800)326-9250 (Tenn), (800) 251-9242 (outside Tenn).
