LAKE BOTTOM LEGEND

Interpretation of a lake bottom from a contour map is based on the spread of the contour interval lines. The closer together these lines are the faster the slope. At the extremes, lines directly on top of each other indicate a straight drop or cliff, while the absence of lines, or lines that are widely spread indicate a relatively flat area. The contour intervals may vary from 2.5 feet to as much as 80 feet depending on the prevailing geographical conditions and the practicality of interpretation. The contour lines may be marked as the number of feet above sea-level, or as the actual depths when the lake is at maximum power pool. When actual depth designations are used, the true depth must be adjusted by the current variation of the lake level from the maximum power pool elevation.

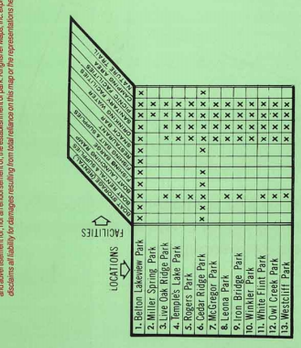
EASY BAKED FISH FILLETS

Heat oven to 350°. Sprinkle both sides of fillets with salt and pepper; then set aside until later.

¼ C. Melted butter, margarine, or oil
1 T. Lemon juice
1 t. Minced onion

Combine the above three ingredients. Then coat fillets with mixture and place on baking dish. Drizzle remaining butter mixture over fillets.

Bake in oven for 20 minutes, or until fish flakes easily with a fork. Do not overcook. Sprinkle fillets lightly with paprika, then serve with tartar sauce, lemon, or hot sauce. Add to a sauce to your taste by combining chili sauce, a small drop of tabasco, and lemon juice, and then heating the mixture. Enjoy!



This map is intended primarily for general purpose use and to show the configuration of the lake. It is not intended to be a complete representation of all marinas, public use areas, or natural or man-made obstacles. Navigational aids are shown in approximate locations for reference only. Depths and/or contour lines (when shown) are based on pre-impoundment low yield and are noted at normal pool elevation, but may not be accurate. Water conditions should be verified locally. Use of this map for navigation (public, private, or marina) should be use only as a guide to possible services provided, and is neither and advertisement for, nor an endorsement of, the establishment or park. Kingfisher Maps, Inc. expressly disclaims all liability for damages resulting from total reliance on this map or the representations hereon.
